A.
Density
$\mu_{inc}$ (log(day))
B.
Density
$\sigma_{inc}$ (log(day))
C.
Indep., fixed inc. period distribution
Indep., variable inc. period distribution
Mech., fixed inc. period distribution
Mech., variable inc. period distribution
Mean generation time (days)
D.
Standard deviation of generation time distribution (days)
E.
Proportion of transmissions before symptom onset
F.
Overall infectiousness, $\beta_0$
