

Figure 3 – Source Data 1

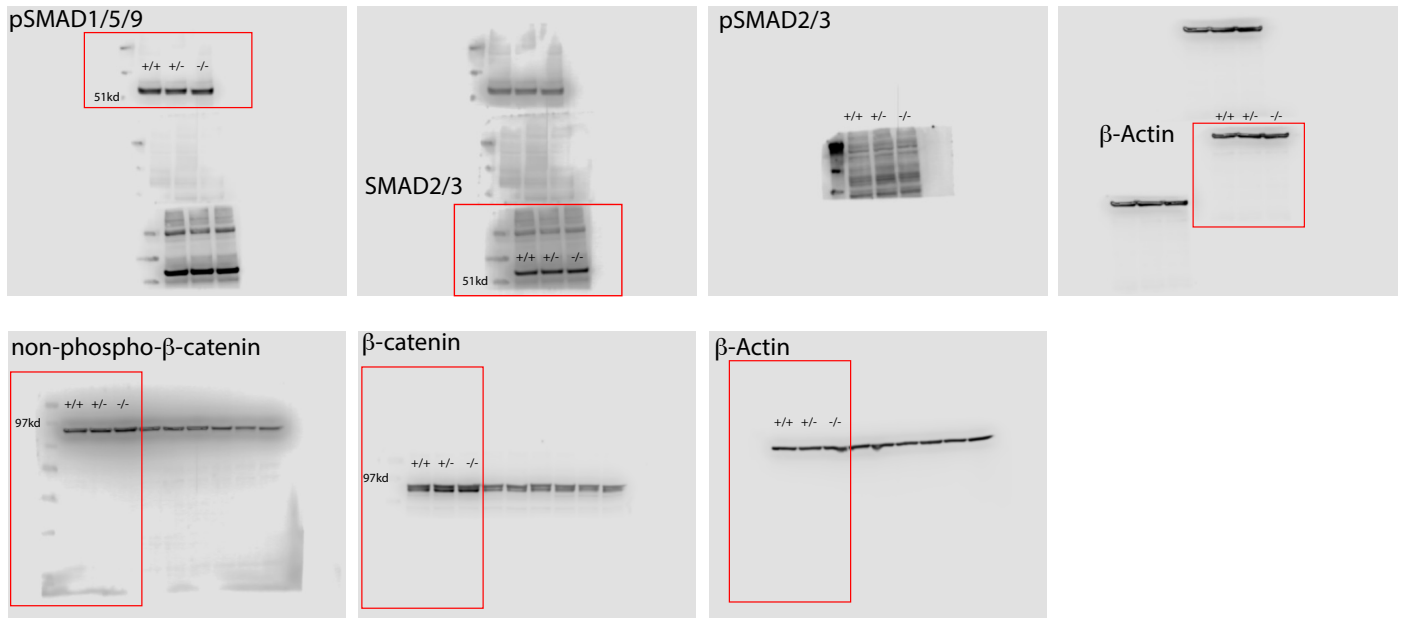

Figure 3 – Source Data 1. Original western blot images labeled corresponding to Figure 3F. The top row of images includes the western blots relating to day 2 +/+, +/-, and -/- samples probed for pSMAD1/5/9, SMAD2/3, and pSMAD2/3 with β-actin as a loading control for this set of experiments. The bottom row of images indicates the western blots relating to day 2 +/+, +/-, and -/- samples probed for non-phospho-β-catenin and β-catenin with β-actin as a loading control for this set of experiments. The red boxes indicate the relevant blots (top row) and sample bands (bottom row) corresponding to Figure 3F.
