

**D**

**Figure 1-figure supplement 1-source data 1.** Original gel corresponding to Figure 1-figure supplement 1D, with relevant bands indicated. Boxed samples are shown in Figure 1-figure supplement panel 1D. The presented gel shows the result of the qRT-PCR assays of embryonic stem cell markers *OCT4/POU5F1* and *NANOG*. The gel shows that they are highly expressed in both hiPSC lines (Q5 Ctrl and Q6 22q11.2).
