

Stat4 blot exposure 1

Stat4 blot exposure 2

p38 blot

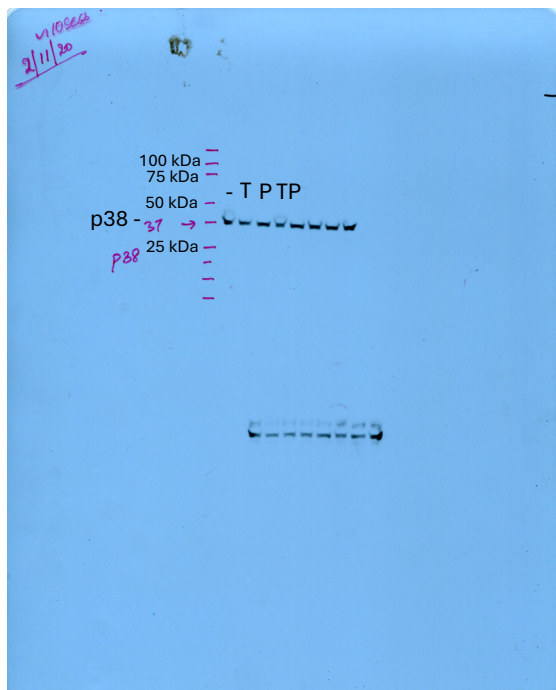

Figure 1F, source data 2. PDF file containing original western blots indicating relevant bands and treatments. The red writing was on original film and the black text is additional labelling. Stat4 blot exposure 1 was used in Figure 1F; exposure 2 shows original labeling of bands and MW markers. p38 was used as a loading control. Lanes 1-4 were used in Figure 1F. - = control; T = TNF; P = PGE2; TP = TNF + PGE2
