S6

p-4E-BP1 (S65)

The diagram illustrates the experimental design for two groups: WT and ETFDH KO. For each group, there is a horizontal timeline. A blue bar labeled '-AA' spans from 0 to 60 minutes. Following this, a 'Stim' period is indicated, also spanning from 0 to 60 minutes. The timeline is marked with 0, 10, 30, and 60 minutes.
