

Figure 6 – Supplement 1 – Source Data 2

Uncropped agarose DNA gel showing PCR products used to assess the 3' integration of four constitutively expressed NanoLuciferase protein fusions: REX3-NanoLuc (REX3-NL), PF3D7_0702500-NanoLuc (PF3D7_0702500-NL), REX3(TMD)-NanoLuc (REX3(TMD)-NL) and NanoLuc alone (NL). The red boxed area indicates the region presented in the manuscript.
