

a) Percentage of embryos showing any level of *Fucosyltransferase-like* driven gene expression at various stages.

b) Percentage of embryos with $\geq 50\%$ of control levels of ectoderm gene expression in control and FT>Foxa.a+Foxd+Fgf9/16/20 electroporated embryos at various stages.

c) Percentage of embryos with any level of ectopic *Zic-r.b* expression in ectoderm lineage cells in control and FT>Foxa.a+Foxd+Fgf9/16/20 electroporated embryos at various stages.
