

Figure 4-figure supplement 1

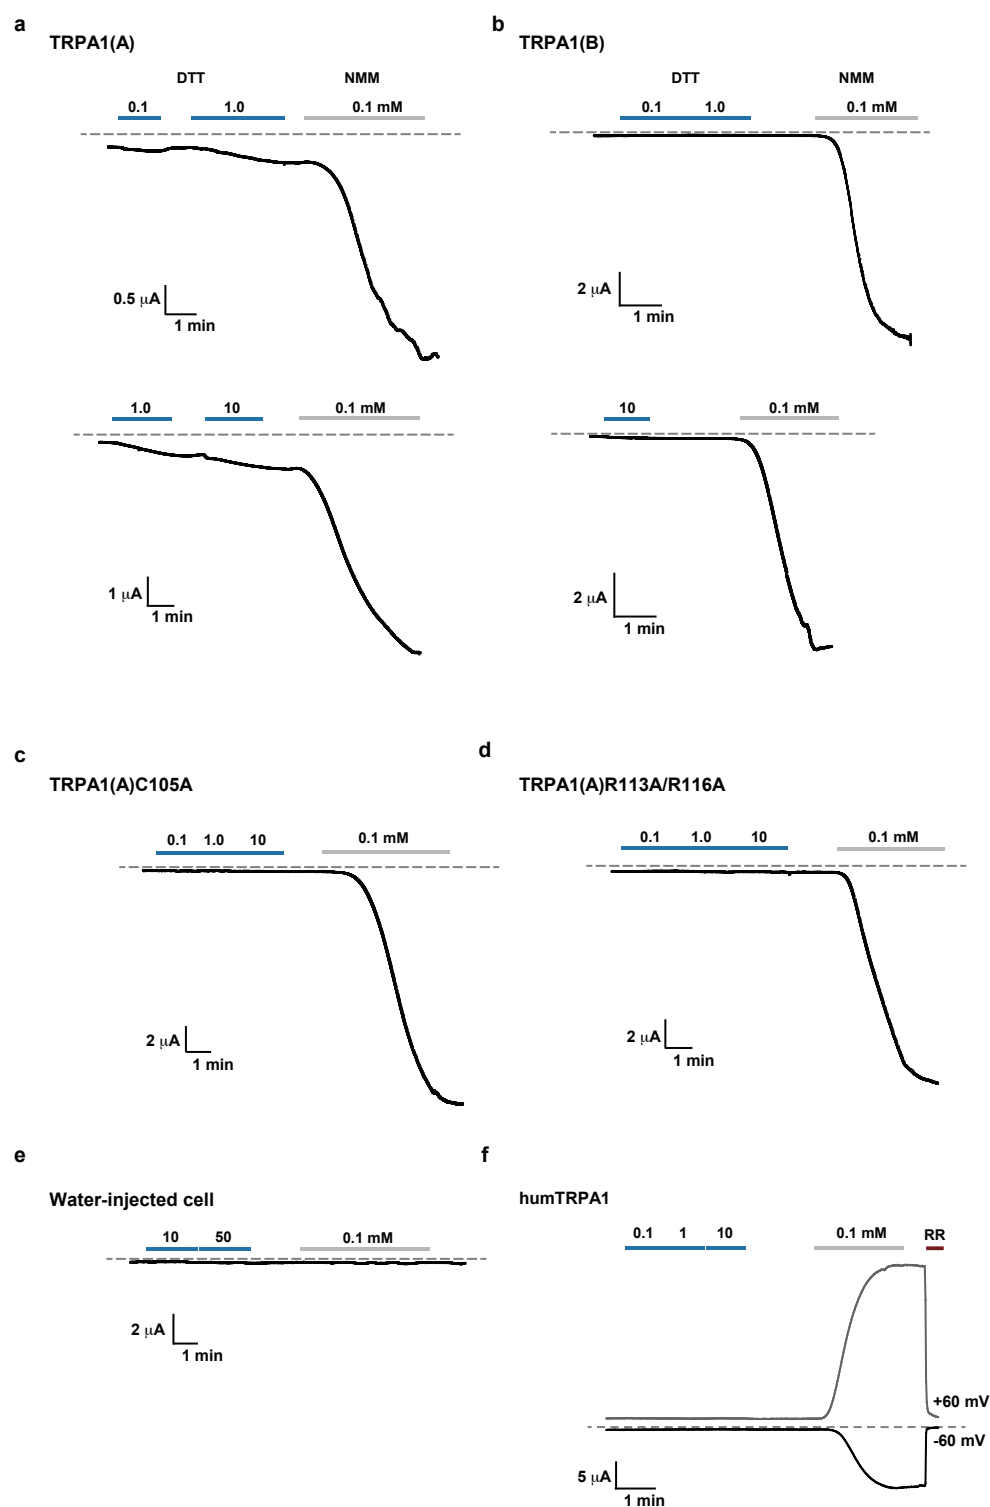

Figure 4-figure supplement 1: Representative TRPA1 currents evoked by DTT in *Xenopus* oocytes. DTT-induced currents were compared with responses to 0.1 mM NMM for TRPA1s as indicated. **(a-e)**, Voltage-clamped at -60 mV. **(f)** A 300-msec voltage ramp between -60 and +60 mV was applied every second. Currents at either -60 or +60 mV were plotted as a function of time. RR: ruthenium red at 50 μ M.
