

A

Detection of volume  
contacts between cones  
and CBC9s

43/124 cones

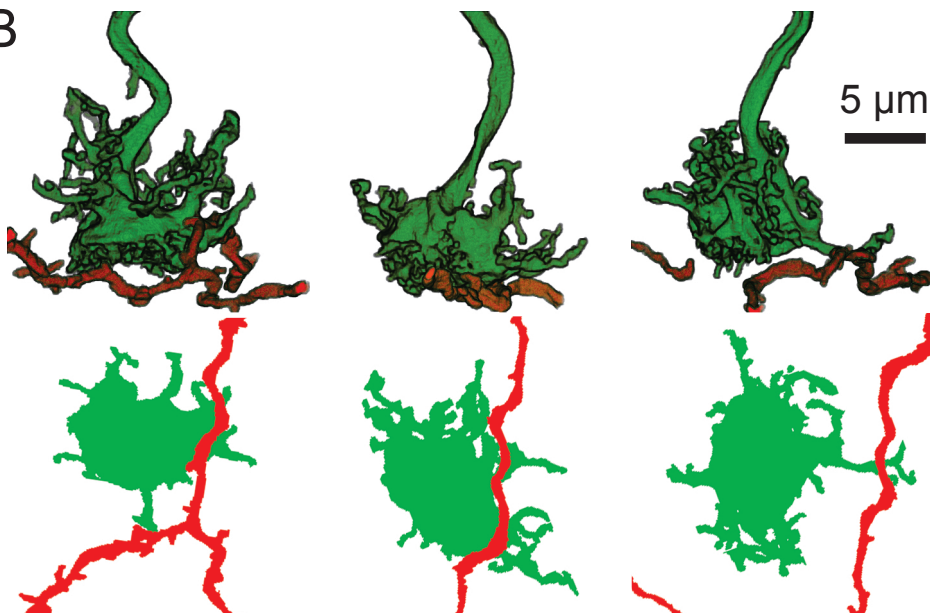

Excluding  
non-invaginating or  
peripheral BC contacts  
(see B for examples)

14/124 cones

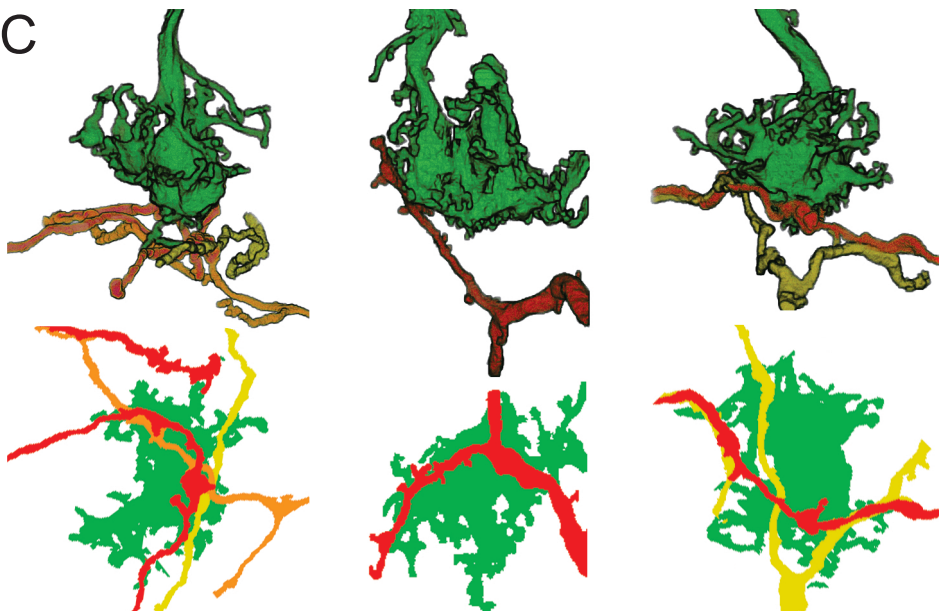

Excluding cones  
with only one CBC9  
contact and other CBC9  
dendrites passing by  
without contacting  
(see C for examples)

6/124 cones  
(see D for examples)
