

**Figure 2—figure supplement 2.**

**Differential mRNA expression of homology directed repair (HDR) genes in multiple tumor-derived cell lines.**

**A.** The chart represents mRNA expression analysis (SYBR-green-based RT-qPCR) of the indicated HDR genes we observed to be down-regulated in the H1650-M3 (CD44<sup>+</sup>/CD24<sup>-</sup>) cells across the indicated cell lines. The data represents mean  $\pm$  SD of 3 replicates from 2 independent experiments.
