

**Figure 3—figure supplement 5.**

**Exposure to TGF-beta does not alter the cell cycle distribution in cancer cell lines.**

**A.** TGF-beta treatment does not alter the cell cycle distribution in U2OS cells. Histogram represents U2OS cell cycle distribution without or with TGF-beta (1ng/ml of each of TGF-beta1 and TGF-beta2, 9hr). 10,000 cells were analyzed by FACS for each replicates of each sample.

**B.** Quantitation of cell cycle distribution from U2OS and H1650 cells upon 9hr treatment with TGF-beta (1ng/ml of each of TGF-beta1 and TGF-beta2. Each bar represents mean  $\pm$  SD of 3 replicates from 2 independent experiments.
