

Figure 2 – Figure supplement 1. Nodal antagonists *lft1* and *lft2* are not expressed in *MZgdf3*. (A, B) Wild-type embryos at shield stage express *lft1* (A) in dorsal mesoderm at the dorsal shield and in mesendoderm precursors at the margin while *lft2* expression (B) is limited to the dorsal shield. Shield-stage embryos of *MZgdf3* do not express either *lft1* (C) or *lft2* (D).
