

Figure 3—figure supplement 1. BRCA1 M1775R retains its function in stalled fork restart. (A) A graph showing stalled replication fork restart rates *BRCA1*^{-/-} HCT116 cells expressing wild-type or M1775R BRCA1. The mean and s.d. from three independent experiments are shown. *** P<0.001, ns P>0.05. (B) immunoblots showing expression levels of BRCA1. (C) Sensitivity assay of the *BRCA1*^{-/-} and its complemented HCT116 cells.
