

**Figure 4 - Supplement 2: Aggregation propensity profiles of PSM peptides using CamSol.** (a) Aggregation propensities of PSM $\alpha$  group of peptides (PSM $\alpha$ 1, PSM $\alpha$ 2, PSM $\alpha$ 3 and PSM $\alpha$ 4). (b) Aggregation propensity of PSM $\beta$  group of peptides (PSM $\beta$ 1 and PSM $\beta$ 2) along with  $\delta$ -toxin.
