

Figure 1—figure supplement 4. Histones and housekeeping genes reflect cellularities.

(A) Scatter-plots showing the co-expression of four histone proteins that were detected in over 60 profiles. (B) Violin plot showing the expression levels of the histones across age-groups. (C) Scatter plot showing the co-expression between ACTA2 and the average of histones. (D) Scatter plot showing the co-expression between ACTA2 and GAPDH. (E) Scatter plots showing the co-expression between ACTA2, GAPDH, and histones, and COL2A1, and ACAN. (F) Scatter plot showing the co-expression between COL2A1 and ACAN. All values are in log₂(LFQ). r is Pearson correlation coefficient.
