

A Mean CID (H3N2 2005-2014)**B SEM (H3N2 2005-2014)**

Figure 2 - figure supplement 2. The mean clustering information distance (CID) of replicate vRNA trees. The pairwise CID was calculated between each replicate vRNA tree from human H3N2 viruses from 2005-2014. The mean CID (**A**) and SEM of all pairwise CID (**B**) were visualized in a heatmap.
