

A

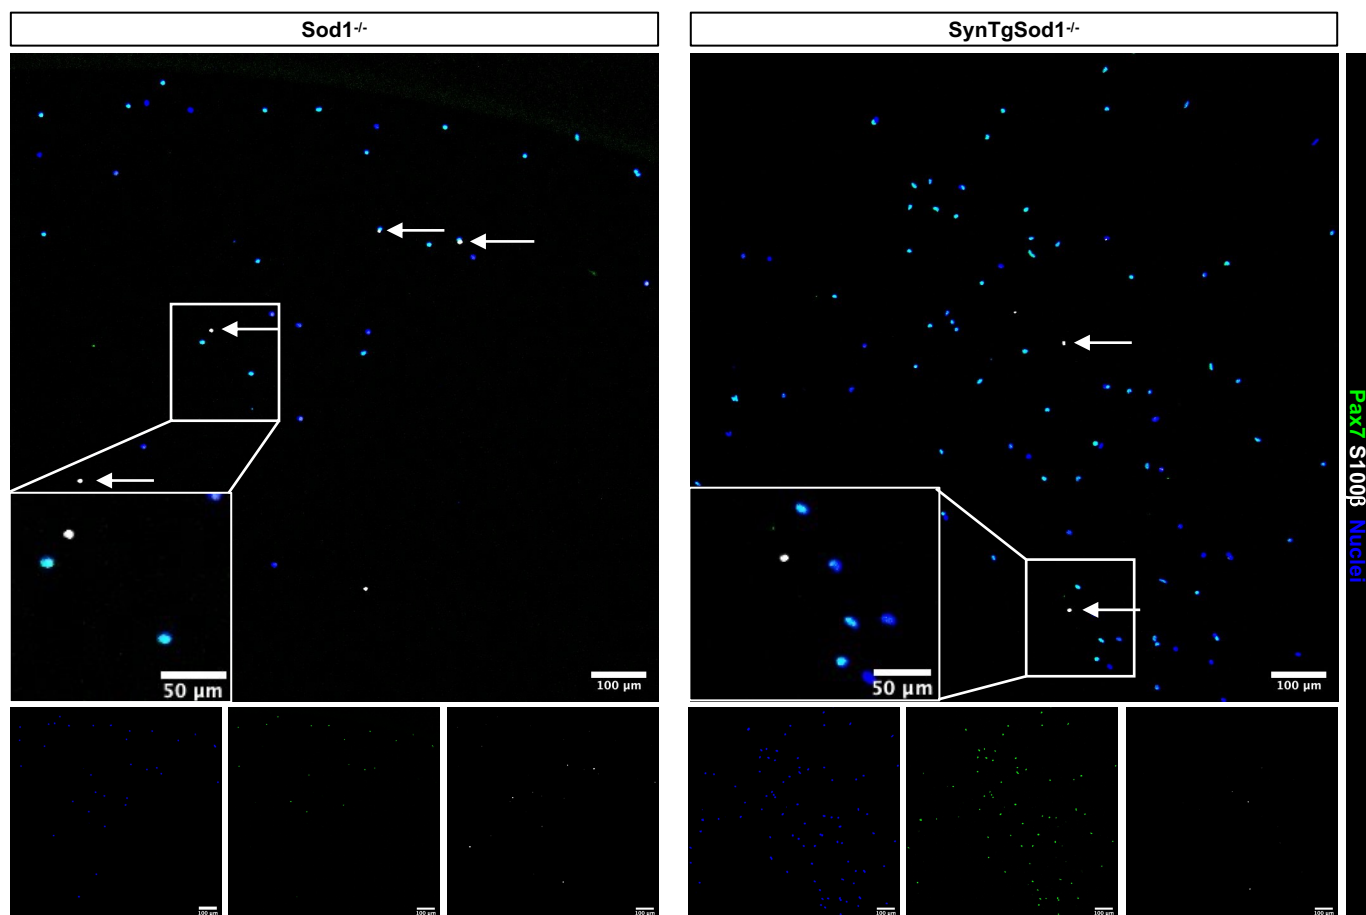

Figure 5 – figure supplement 2. A) Representative IF images of Pax7 and S100β expression in MuSCs sorted from *Sod1*^{-/-} and *SynTgSod1*^{-/-} muscles. Scale bar indicates 100 μm for full size images and 50 μm for insets. Arrows point to Pax7+S100β+ cells. Image quantifications are shown in Figure 5e.
