

B

Figure 1 shows two rows of 96-well plates. The top row is labeled 'HEK-2LR2' and the bottom row is labeled 'HEK-2LR4'. Each row contains 9 wells, labeled 'Con', 'S-2', 'S-1', 'M', 'N', 'E', 'Pam3', and 'LPS'. The wells show varying degrees of red color, indicating different levels of response to the ligands.
