

Figure 1, Supplement1

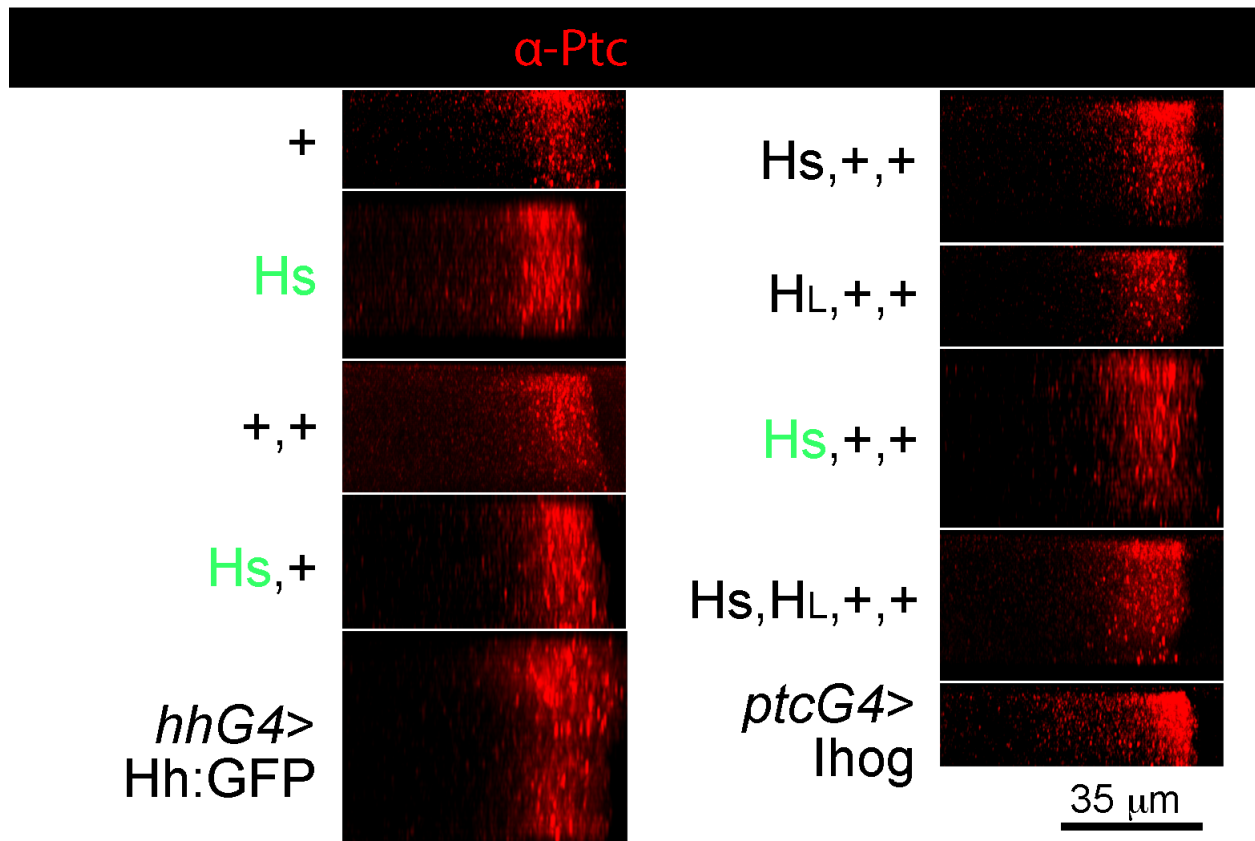

Figure 1-figure supplement 1. Apical/basal distributions of Ptc in *hh* gene copy number genotypes Panels show representative maximum projection compilations of multiple cross sections of wing discs stained with α -Ptc antibody. Anterior, left; posterior, right; apical, up; basal, down. Width of Ptc stripe unchanged except for *ptcGal4>lhog* (elevated A compartment staining) and *hhGal4>Hh:GFP* (thicker disc).
