

Figure 2, Supplement2

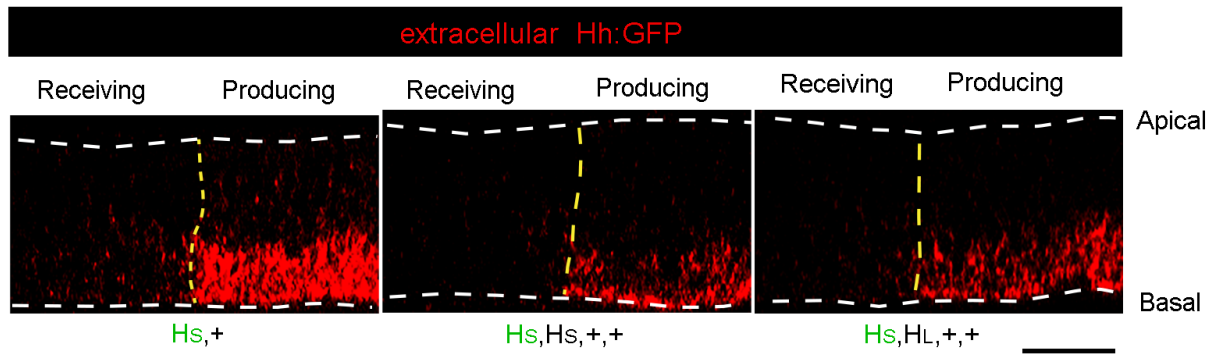

Figure 2-figure supplement 2. Distributions of extracellular Hh in *hh* gene copy number genotypes Sagittal images from optical sections of wing discs with one Hh:GFP gene together with one, or three *hh* genes. Discs were stained with α -GFP antibody. Anterior, left; posterior, right. Yellow dashed line indicate approximate location of A/P compartment borders; white dashed lines indicate locations of apical (top) and basal (bottom) membranes. Scale bar: 25 μ m
