

**Figure 3-figure supplement 1. AlphaFold Modeled Structures of SSTR isoforms.** Structures of SSTR1, 3, 4 and 5 from AlphaFold Protein Structure Database ([alphafold.ebi.ac.uk](https://alphafold.ebi.ac.uk)) were superimposed on the cryo-EM structure of SSTR2. SSTR2 is shown in a ribbon diagram in salmon color. SSTR1 is shown as a Ca backbone model and colored in green, SSTR3 in cyan, SSTR4 in gold and SSTR5 in magenta.
