

Figure 5

Figure 5-source data 1: JPh raw blot incubated with JPh abA shown in figure 5A

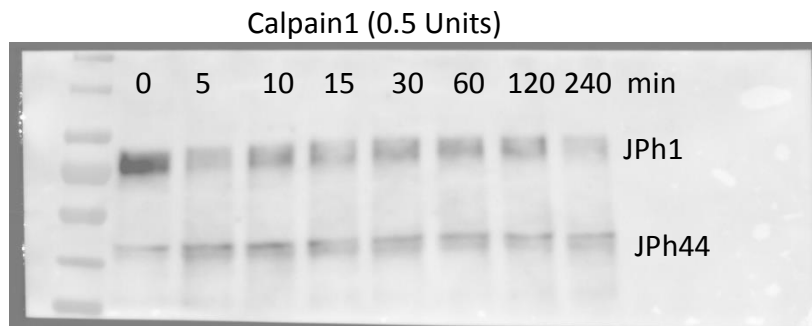

Figure 5-source data 2: Normalizing ponceau stain blot for JPh blot shown in figure 5A

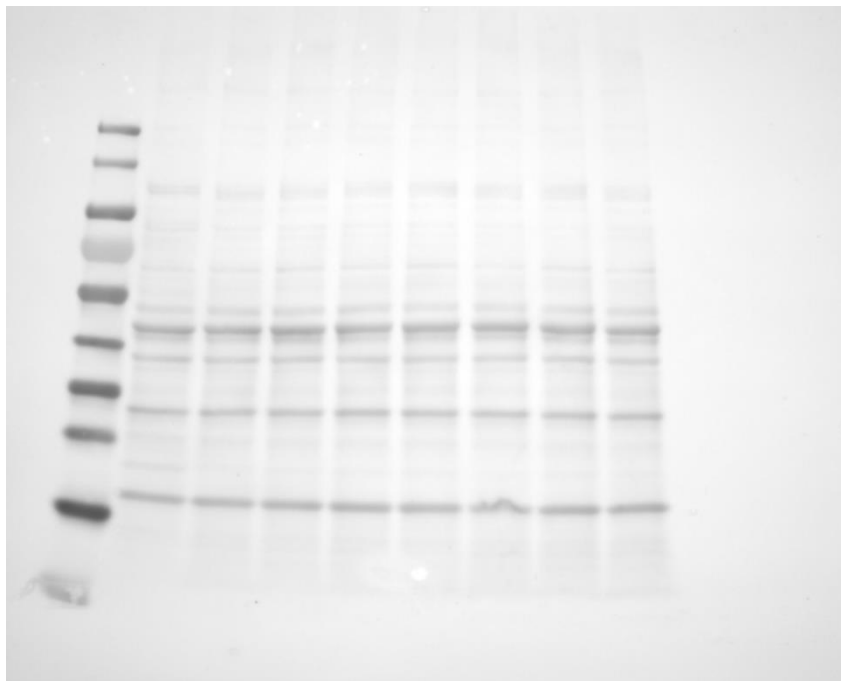

Figure 5-source data 3: Boxed area of following JPh1 blot is shown in figure 5C

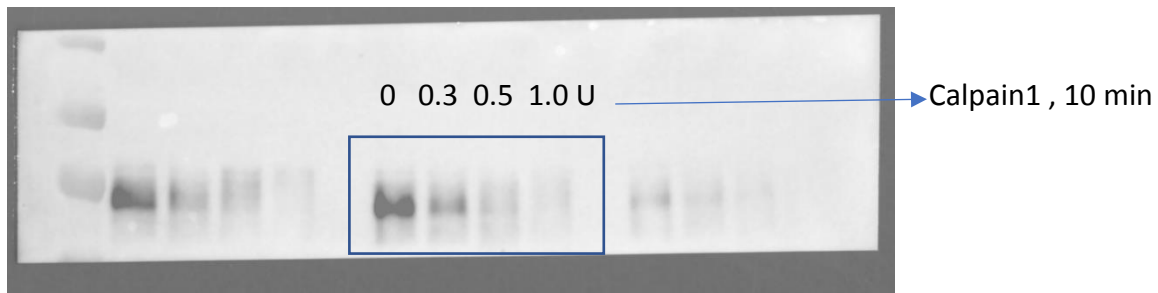

Figure 5-source data 4: Boxed area of following JPh44 blot is shown in figure 5C

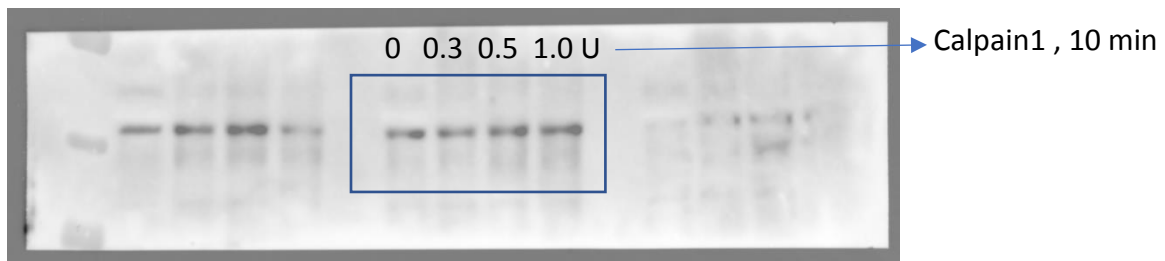

Figure 5-source data 5: Following normalizing ponceau stain blot is used for above figure shown in 5C

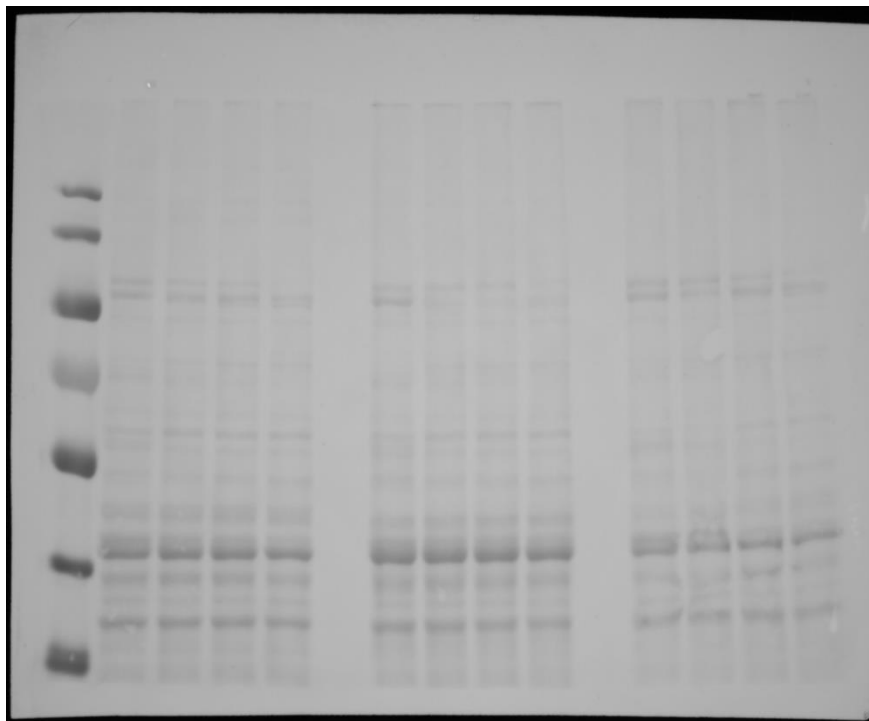

Figure 5-source data 6: Boxed area of following JPh1 blot is shown in figure 5E

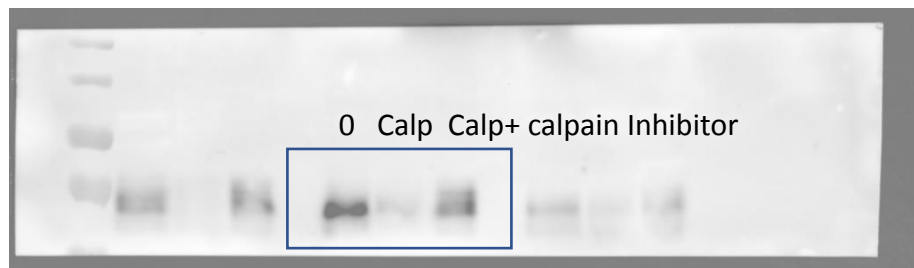

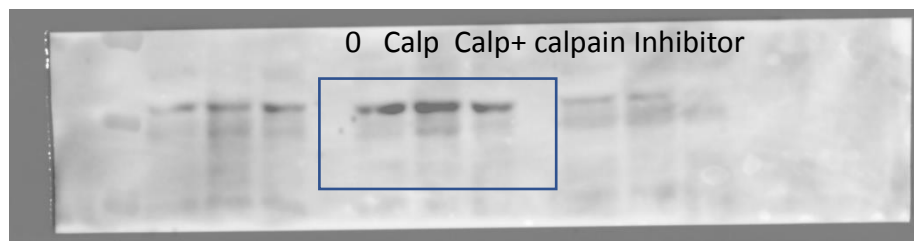

Figure 5-source data 7: Boxed area of following JPh44 blot is shown in figure 5E

Following normalizing ponceau stain blot is used for above figure shown in 5E
