

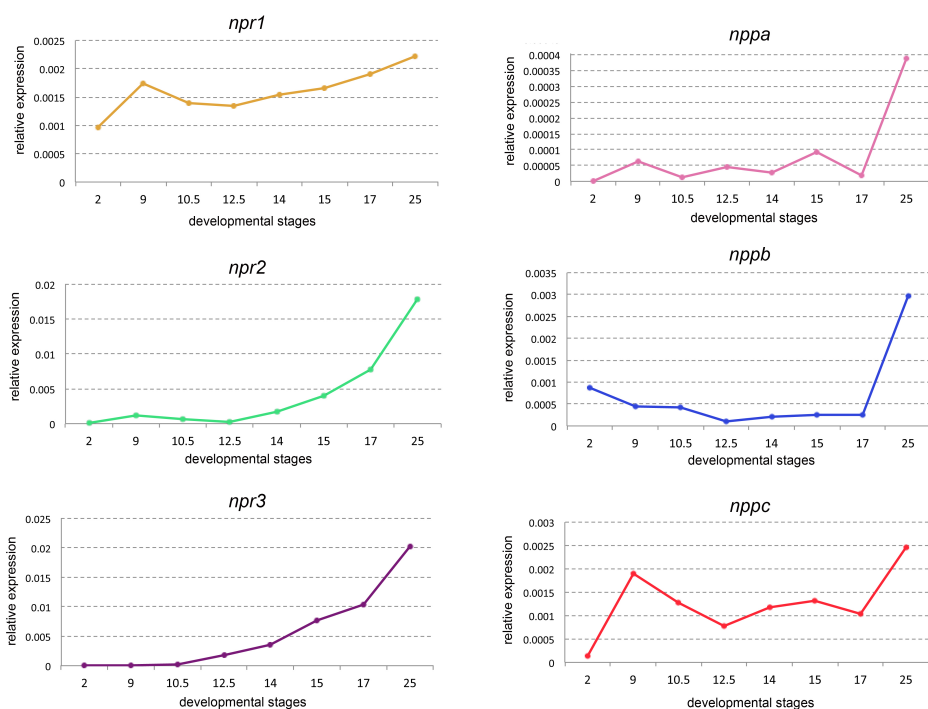

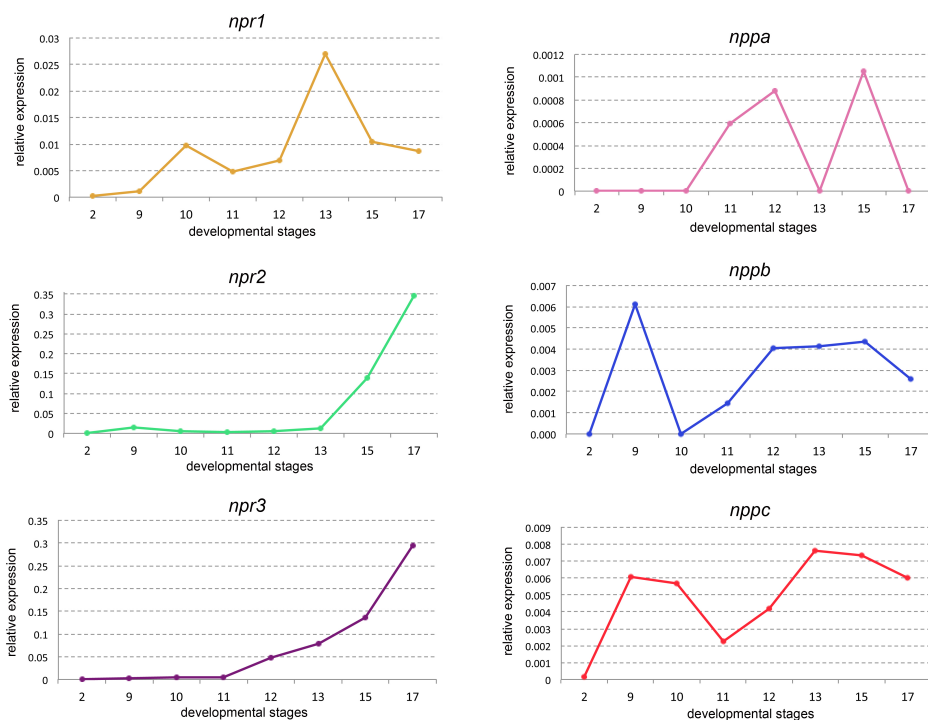

**Figure 1-figure supplement 1:**

**A**

**B**

**Developmental RT-PCR of natriuretic peptide signaling pathway components.** Developmental qRT-PCR expression profile of *npr1*, *npr2*, *npr3*, *nppa*, *nppb* and *nppc* in two biological replicates (A and B) of WT *Xenopus* embryos. NF stages are indicated on x-axis, values are normalized to *odc*.
