

Figure 2, Source Data 1. Original membranes corresponding to Figure 2 A. BioRad protein ladder was used. Molecular weight for ACSS2 (78kD) and SIRT2 (43kD) are labelled.

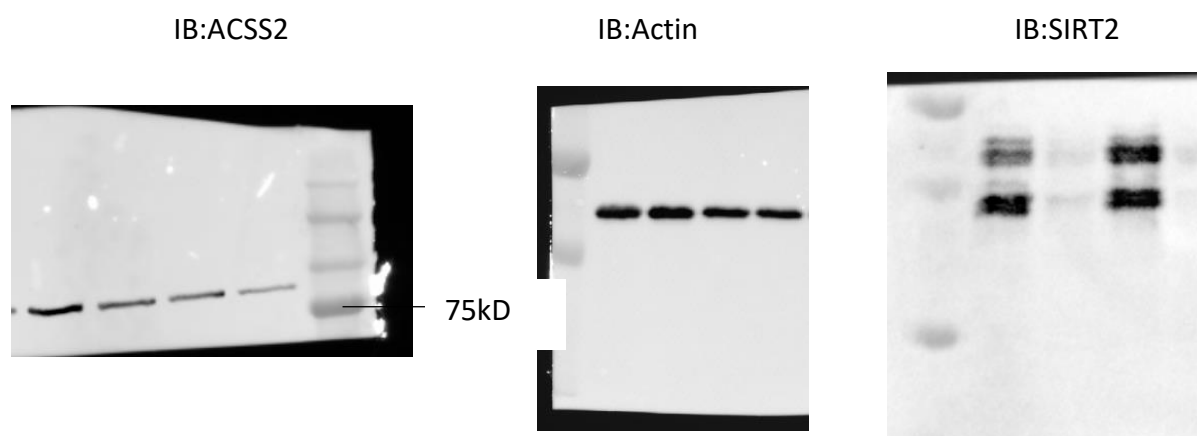

Figure 2, Source Data 1. Original membranes corresponding to Figure 2 B. BioRad protein ladder was used. Molecular weight for ACSS2 (78kD) and SIRT2 (43kD) are labelled.

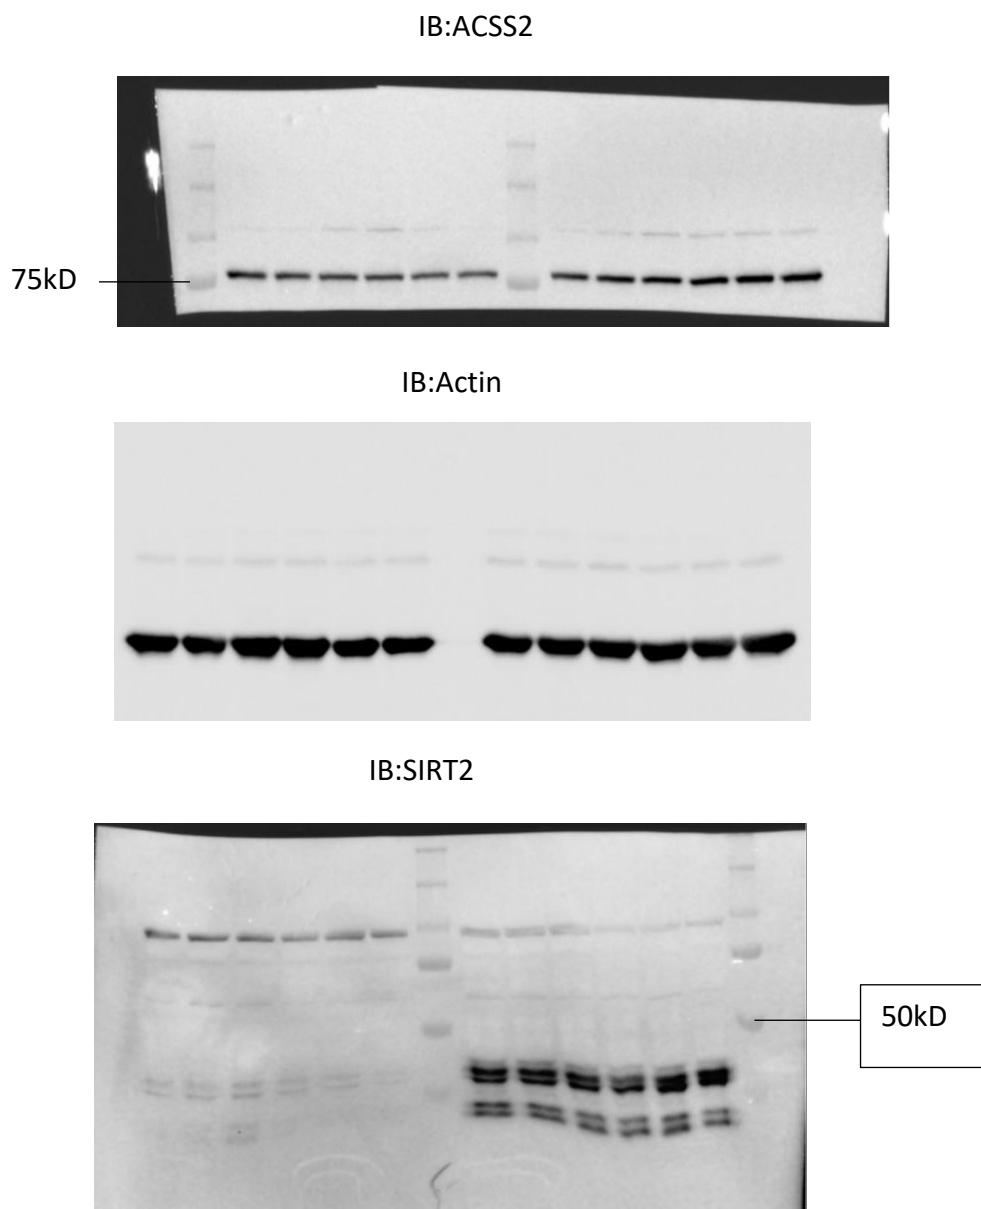

Figure 2, Source Data 1. Original membranes corresponding to Figure 2 C. BioRad protein ladder was used. Molecular weight for ACSS2 (78kD) and SIRT2 (43kD) are labelled.
