

Figure 6D

Figure 6, Source Data 1.Original membranes corresponding to Figure 6, panel D, show the treatment of STC-1 cells. The first three lanes represent cells treated with GFP, while lanes 4, 5, and 6 correspond to cells treated with *Piezo1*-GFP.

Figure 6H

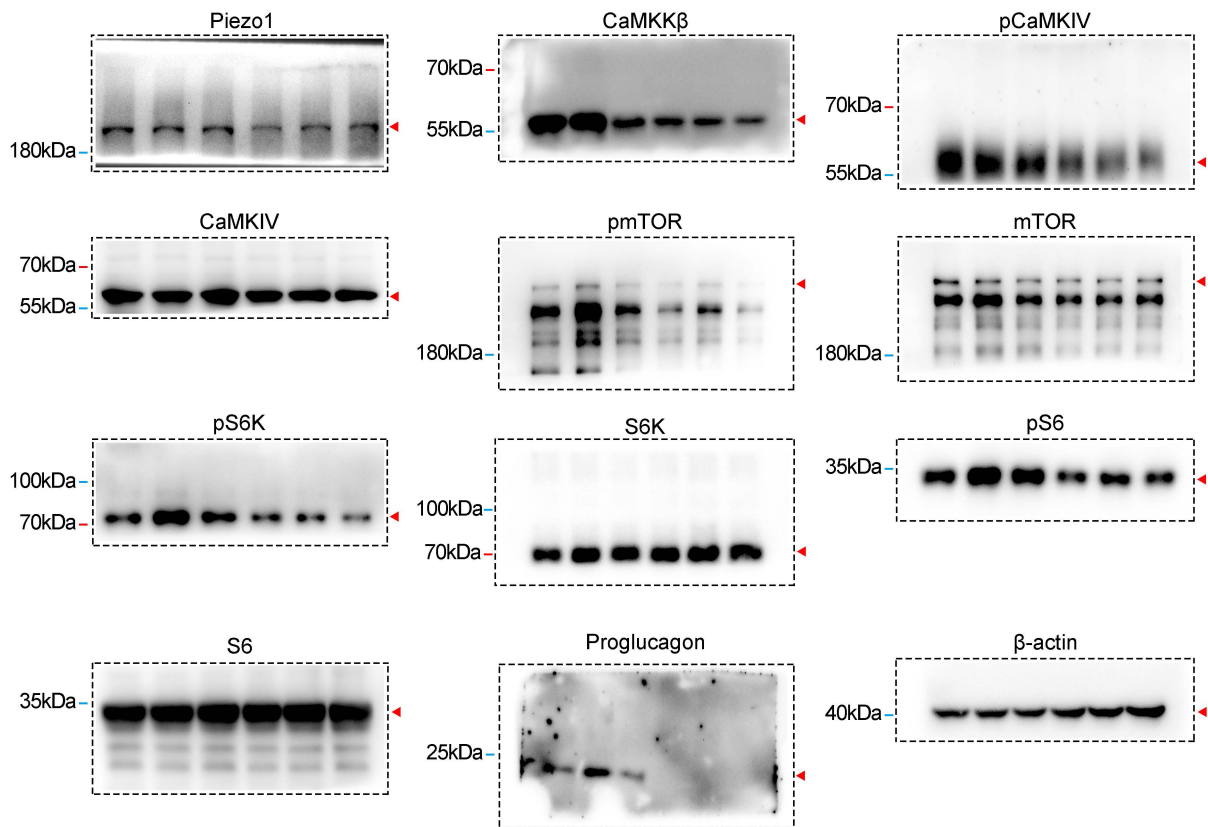

Figure 6, Source Data 1. Original membranes corresponding to Figure 6, panel H, depicting the treatment of STC-1 cells. The first three lanes represent control treatments, while lanes 4, 5, and 6 correspond to sh-*Piezo1* treatments.
