

FIG3 figure supplements 1 source data

Representative western blot images (Young+PBS, Young+Old and Young+Aged) of cell NLRP3 protein (n=3).

Representative western blot images (Old+PBS and Old+Young) of cell NLRP3 protein (n=3).

Representative western blot images (Aged+PBS and Aged+Young) of cell NLRP3 protein (n=3)

Representative western blot images (Young+PBS, Young+Old and Young+Aged) of cell CASPASE protein (n=3).

Representative western blot images (Old+PBS and Old+Young) of cell CASPASE protein (n=3).

Representative western blot images (Aged+PBS and Aged+Young) of cell CASPASE protein (n=3)

Representative western blot images (Young+PBS, Young+Old and Young+Aged) of cell IL-1 β protein (n=3).

Representative western blot images (Old+PBS and Old+Young) of cell IL-1 β protein (n=3).

Representative western blot images (Aged+PBS and Aged+Young) of cell IL-1 β protein (n=3)

Representative western blot images (Young+PBS, Young+Old and Young+Aged) of foot tissue β -actin protein (n=3).

Representative western blot images (Old+PBS and Old+Young) of foot tissue β -actin protein (n=3).

Representative western blot images (Aged+PBS and Aged+Young) of foot tissue β -actin protein (n=3)
